

IO1 C-STEP 1 'Counselling migrants and refugees' Fact sheet for participants: Unit 4 "Specific supportive measures"

Objectives and learning contents

The fourth online training from the C-STEP 1 focuses on the „Specific supportive measures“. It stands that in all countries, a specific socio-political and governmental situation defines the possibilities and challenges of entering into the labour market. Sophisticated social security systems with specific measures for the integration of unemployed people do not exist everywhere. Even though most western and northern European countries have more sophisticated systems than the global south, they are still not used everywhere. There is a need for counsellors to be aware of, use and promote more efficient and inclusive integration procedures to prevent the chances of challenges interfering, preventing labour market participation of migrants and refugees.

Supportive measures must be known to all counsellors, for example training facilities or state supported jobs, as well as where obstacles and possible solutions lie. Counsellors should therefore know about the rapidly changing portfolio of measures and the sustainable outcome for the successful integration of the job-seeking refugee or migrant into the labour market.

Therefore, the fourth learning unit should cover the contents language acquisition in supportive measures and labour market schemes and training measures for the adaptation of vocational skills for refugees and migrants. Furthermore, the unit should focus on legal aspects of support measures. This will be the basis for specific supportive measures.

The complete unit will always combine determination of participants' experience in conducting, sitting on or just hearing or reading about career guidance and counselling sessions with refugees and migrants with evidence on specific challenges and demands in such settings on the hand side and deliver basic knowledge on the other hand side.
